

My Contract with Congressional District PA 4

The consequence of an election should be that your voice was heard. I hear you. I understand you. This is what I'm offering you in return – a Contract. This is more than promises, it is my contract with you.

1

I will form an Advisory Committee of Constituents drawn from all of the citizens in the district whether they voted for me or not. After all it's OUR district.

2

I will have the most responsive constituent services department possible. You should NOT have to wait 8 months to receive a reply from a staffer.

3

I will work to protect our economy:

- Infrastructure – work to bring critical infrastructure and civil engineering resources to our district.
- Protect our various energy sources.
- Move JOBS back to America by incentivizing companies to invest here!
- Move critical medical manufacturing back to America!

4

I will stand up and protect ALL of the Constitution:

- America is a land of Law & Order. I will not politicize this fact.
- No State Bailouts because they weaken the Federal system. States must learn to live within their means like every other American.

5

I will protect our Healthcare and Social Security system.

6

I will protect our American communities: I will defend the suburbs and NOT abolish them. I will NOT allow the federalization of our local zoning. We determine our community's development, NOT Washington, D.C. I will support our men and women in blue.

7

I will protect our Families:

- Education, to include Trade School developments
- Reduce the number and size of food deserts
- Child care

8

I will defend our military and Veterans.

9

I will HOLD China accountable:

- ...for the 180,000+ deaths of American citizens due to COVID-19.
- ...for the enslavement of the Chinese ethnic minorities – the Uyghurs.
- ...for their aggressive behavior in the South China Seas.
- ...for the detrimental attack on our environment. I will work to bring about fairer international trade policies.

10

I will NEVER become a Politician.

- I will Legislate good laws.
- ...and Represent the Constituents of the 4th CD of PA well.
